

Mini Manual On Survival

By Tom Metzger

How could I become an active member of W.A.R?

W.A.R is not a membership organization. W.A.R is a voluntary association of individuals and cells. These people co-operate and network for the common good of the WHITE RACE. There are no dues, uniforms or initiation fees. No regular meetings or compounds to attract agents and infiltrators. No publicized chapters, etc. Much of our work is covert in nature.

TO JOIN OR NOT TO JOIN

Joining a group or recruiting the public or masses is a common error of logic that many make. The enemy fail-safe limits are well in place to control such an approach. We have many such groups around the country who believe their eat meet and retreat logic is a winning formula. I call it intellectual masturbation. It may feel good but nothing changes after the thrill is gone.

There comes a time when the body is so infested with parasites that band-Aids no longer have any effect. Be it parasites or cancer its time for major surgery. The general public that you speak of never has sufficient courage to do that. So it's up to the small percentage of serious surgeons to use a different approach. I call that Revolutionary Racism.

Agreed the general public will not like our approach but on the other hand will not seriously interfere unless they sit on a jury. It is simply a WAR between a minority in power and a minority that is presently without power.

Trying to satisfy the public will drive you mad. The public in general doesn't have an individual mind. They have what is called the mass mind. They follow the leader or who is successful in gaining power.

No, my friend the time for parlor manners and polite politicking is long over. It is now time to alter or abolish by any means possible.

NETWORKING

What follows are suggestions to help keep us healthy. Those that ignore our ideas discover the hard way and pay the price.

1) Beware of strangers. Historically, resistance to political criminals has taken the form of small autonomous groups (cells) whose members know and trust one another from long experience. Even better be your own one man or woman unit. There is plenty of written and electronic material to guide you. Holding hands can be deadly.

The head of the DEA recently lamented that once they broke up the major South American drug cartels they were left with hundreds of small groups that were extremely hard to infiltrate and destroy.

After all how many actions have you seen take place that one determined activist could not have accomplished even better than a group? In most cases where three or more take action you can expect at least one to talk if caught. In most cases they all rat on everybody else. Three people can keep a secret if two are dead. Always remember in any contact with the men of the Iron Heel always stick to 5 words. I HAVE NOTHING TO SAY. No one can help you but you yourself once you are in the hands of the enemy.

2) Beware of the man who is "too perfect". He says all the right things, needs little persuasion, plus he supplies a substantial amount of money. Several White separatist membership organizations fall into this attractive trap. They tend to make allowances for people who give larger amounts of money. Sure it takes money to operate but at what cost? Make sure you do not drop your standards or security for money contributions.

3) Beware of handling someone else's firearms or any weapon. You may find your fingerprints showing up at a crime scene. Anyone that hands you a weapon for your inspection should be politely told "NO THANKS."

Always carry a small low cost audio tape recorder in your pocket or car. Keep one at your front door also. They only cost \$20 bucks but can save your Lilly white butt. I know personally of that fact. Never let any agent of the Government into your house without a warrant.

Turn the tape recorder to record at the approach of any agent from any level of government. If you can afford a used camcorder keep it ready at all times with batteries charged. If you spend much time in your car take the video recorder with you. Turn on your recorders especially at any "ROUTINE TRAFFIC STOP."

Carry a low cost 35 mm camera with you at all times. Auto advance and collapsing telephoto lens is preferred. All this equipment can be picked up cheap at a swap meets or garage sales. You have a choice, spend a few bucks on equipment or possibly spend years in jail. I have known people in the past that did hard time primarily because they

were too cheap to buy a police scanner. Of course most police communication is scrambled now, which changes that picture somewhat.

We are living in a growing knife or edged blade society. Carry a legal length knife and know how to use it. Box cutters come in all sizes and are a good defense item. Plus they are disposable and cheap. More easily explained also. In a pinch there are dozens of weapons lying around in an emergency. Rocks, bottles, or anything lying around the area. In a riot with the JDL a few years ago a comrade used a floor standing ashtray to nearly beat a Jew attacker to death.

A carpenter carries tools of the trade. Hammers are deadly. An auto mechanic carries tools; a pipe wrench can ruin the day of an attacker. Almost anything feasibly can be used as a weapon. Pencils or ballpoint pens used properly will also ruin an attacker's day. If you can lift a refrigerator it could become an offensive weapon. Yes, that's a little extreme but caught in the street a broken off car antenna's may become your best friend. You are only limited by your imagination.

Easy off oven cleaner kept near the entrance to your house and out of a child's reach can be a housewife's savior if someone tries to break into your house. After a shot of that stuff in the face any intruder will have a lot more to worry about than the rape your wife or girl friend. A can of easy off under your car seat is simply groceries.

Also remember most people go to jail for having guns not using them. I have been active for 30 years and never been in a situation that a gun was mandatory. Pepper Spray and a blade should suffice unless you are stalking big game. It is not a sign of cowardice when confronted with superior numbers to exit the scene to live to fight another day. It is best to avoid simple street confrontation if at all possible. What's to gain???

Wearing racial symbols all over you is not very wise unless you are eager to enter a no win situation. You may win the street brawl but be charged with a hate crime even if you are the victim.

Do not drink and then go into the streets. Most young people that are doing hard time were drinking alcohol at the time of the alleged crime. What possible connection is there between killing a Negro or Spic vagrant or even a gang banger in the streets and Racial revolution? If you go to prison for stupidity don't expect to be recognized as an ARYAN P.O.W. Only the finest racist soldiers deserve that label.

4) Be doubly aware of a new acquaintance who proposes unlawful activities. If the person is innocent he or she is stupid if not you will soon find him or her testifying against you in state or federal court.

5) Beware of those who draw checks from the enemy. They are likely to have divided loyalties. Some retired military personnel may fit this picture. I have known personally three retired Generals in my day.

They may have been great at sending privates into harms way but in civilian life they weren't worth a damn for our cause either for action or for contributions. As far as normal Government checks are concerned, I support liberating as much cash as possible from the Iron Heel. Remember every dime they control came primarily from our race.

6) Avoid drunks, drug users and any one of unstable character. Always choose quality over quantity. Unfortunately this often does not show up until too late. Keep your eyes, ears, and nose active. Do not be embarrassed to be nosy. If the person objects to your investigations simply walk away from he or she. Better safe than sorry.

7) Beware of someone whose intellect, education and background appear radically different from those with whom he attempts to associate. Most people interrelate with others of similar interests and background.

8) Do a lot of investigating. To be sure, the Federal and State cops can create a good cover. But they seldom bother because up to now right wing style membership resistance groups almost never checked their associates backgrounds, police records or military records.

Above all don't forget to check civil records. Angry divorce proceedings have given us great intelligence information in the past. I once flushed out a police informant by reading his divorce records. The wife was demanding part of his police pay.

Some infiltrators use the military expert ploy. Check their DD214 military record. If they will not produce it walk away. Even then an agent of the Naval Investigative service may assume any rank from lowly Seaman to an Admiral. The same goes for other military security agencies. You cannot be an effective resistance operative in the military and be an open Racist. No. 1- If you declare in any way that you are a Racist you will be booted out of the military. Possibly even be jailed. You then are of little use to the struggle. Military operatives must be totally lone wolf and deep cover. In other words keep your mouth shut no matter what. I have known a few military men who joined the struggle claiming great deeds. In two cases I know of off hand one was supposed to be a Marine Sergeant but was actually kicked out of the military 2 weeks after he joined, plus he was a homosexual. He led several men straight to federal prison using those lies. Another was Patriot party leader Glenn Miller who was a Green Beret. He was a Green Beret but only a supply sergeant not a combat soldier. He later testified against other good movement soldiers in federal court. At one time he led several hundred troops in the streets.

Remember most organizations are sold out from the top, not the bottom. Another reason to be lone wolf or part of a small cell. NEVER TAKE A PERSON AT FACE VALUE. No one is ever above suspicion. Sad but that's the way it has to be.

9) Recognize the ruthlessness of the oppressor and be prepared to use the same tactics against the Iron Heel. All government's rule by force or implied force. They will mass murder innocent families, including women and children; they will not play "fair" with you. Forget all you learned in Government class. There is no justice in the courts or in the streets for White Racial Separatists. Do not expect it and do not plead for it.

10) Beware of signing up for any membership organization or you could find yourself taking orders from the Iron Heel itself. Many membership organizations mean well but are at the mercy of federal agents and many other civilian investigators. In many cases such groups are tolerated to continue simply to provide a listening post or a thermometer to gauge resistance intentions and strength.

Saying you operate in a totally legal manner means nothing to your oppressors. If you have a successful career the Iron Heel or other groups will ultimately destroy you not for what you do but for what you think. I have seen it happen over and over again. Some groups membership groups have good intentions of recruiting up in class.

If you are pulling down \$100k plus and attend these meetings prepare yourself for the bread line at some point in time when the Iron Heel decides its your time.

11) Recognize media's tactics. Do not worry about labels if you are already a public figure. When they call you a Racist just smile and say thank you "aren't you"? If you prefer to remain private refer the press to one of several well-spoken people who have lots of experience with the press. DO NOT refer the press to some candy ass mealy mouth double talker.

12) Learn to live within your means. Do not let debt overtake you. Debt makes you a slave as millions of White Americans are finding out the hard way. Most divorces are triggered by money problems and debt. Credit cards properly used can make you money but they are only for the truly clever.

If you cannot figure how to use credit cards to make money get rid of them and pay cash. Debt is a disease that your oppressor's rely on. In the South after regular slavery was outlawed another form popped up. It was called sharecropping. The land owner would get you so far in debt before the crop came in that when it did you barely had enough to pay the debts. If you ran the Sheriff chased you and dragged you back just like a slave. You say, Oh that's was just Blacks. Think again it worked the same with poor white sharecroppers.

Learn to live off discards. Buy used. Learn to repair older cars and appliances. Don't ever try to keep up with the nigger Jones. That's a JEW trap. Buy your needs at swap

meets, garage sale's, thrift shops and thrifty adds in newspaper columns. Learn to network and barter.

Don't pick up and move every year thinking the grass is greener on the other side of the hill. Whenever you move some distance from your familiar stomping ground you lose valuable contacts both political and economic. Many of these networks have taken a lifetime to create.

Develop an economic support network with friendly businessmen. Many white people will not join you but they do understand and sympathize. Behind closed doors many are fire-breathing racists too.

These types are very useful in an economic network. In many cases it is not good to recruit this group into active cells. They serve a good purpose without being asked to commit more than they are willing or able to do. In any war most of the personnel are in support companies.

I say you can cut your budget in half from the standard Politically Correct average white families expenditures if you use your Aryan brain. If you find yourself on the run don't forget dumpster diving for fun and profit. Never compromise a comrade by making contact if you are on the run. Go where least expected. Large urban areas are much better to disappear into than the woods. Most people's survival skills are not good enough to survive in the wild. Detection is far simpler in the wild using sophisticated equipment. In the wild also you can be killed easily without any witnesses to testify your hands were over your head. The toughest crew that George Lincoln Rockwell ever put together was the Oakland Suicide Squad. This small group lived in the middle of the Black Ghetto and was not bothered by the natives. Would you have the nerve to hassle 6 nazi's that lived in the middle of the ghetto?

Keep your ear on the news. Most people turn their car radios to rock and role or whatever is the in thing at the moment. If you are a real activist checking the news both locale, national and international should be like breathing. Most large urban areas have all news radio stations. News today is almost instantaneous. You must be aware at all times about the latest news. Yes, I know much of it is pure B.S and Nigger ball scores, but between the lines a sharp listener can be very well informed. Any Aryan soldier that thinks he or she can survive without being keen on world and locale affairs is simply playing games.

We must also create our own means of informing the public to help them be at least neutral in the struggle. Covert literature works best or black propaganda. As long as the literature promotes lack of confidence in the Iron Heel it is good. A large percentage of people have learned to despise the Iron Heel, keep that fire growing. (Learn to fish in friendly waters). We must be committed to winning by any means possible. Don't let

them kid you; the ends do justify the means. People in power sleep with that statement under their pillow.

Endeavor always to send messages, which will ring true in the ears of our dwindling White Worker population. There is an enormous amount of moral and ideological high ground, which has been abandoned by our enemies. Claim it and use it. On the other hand do not waste valuable time trying to convince a relative or friend. Go around such people and find our troops wherever they may be. You must accept that perhaps millions of Whites are not salvageable and will fight to the death to protect non-whites and Jews. Do not cast pearls before swine. We are all part of an extended family now. In many cases this extended family may prove to be a more reliable one than your own blood relatives sad to say.

We must all bear in mind that we are unpaid volunteers from all walks of life. Rich sometimes but rarely, middle class a lot and poor also.

Fanatic is a good term in this case because only fanatical zeal will keep you going much of the time. To be a good leader, you must first be willing to be a servant. Study the book, "The Art Of War" or "MIGHT IS RIGHT." You must EARN respect – don't demand it.

Why be Racist?

Why be racist? Well, with most of us it's entirely a matter of instinct.

We know in our Souls that blue-eyed blondes and green-eyed redheads never got to earth due to God's benevolence, but only because of thousands of years of pure hate-racism, and that such white folk will not exist a couple of hundred years hence without persistent hate and pervasive segregation.

But there are millions of "white border collies" on the racial issue,

"sensing" that they SHOULDN'T feel racist, but feeling the Truth of things nonetheless. We need to help them by giving little aphoristic "bee-stings" to the mind, and letting them stew on nothing being as simple as it seems. In other words plant the seed and move on. In essence, there are MANY reasons to be racist if one doesn't like ours:

1) The "social psychological approach" maintains that prejudice socialized early in life feeds racial stereotypes...but how many of you white boys and girls growing up anytime after 1965 really followed whatever your parents said, anyway? I thought you guys and gals had your OWN minds to make up! Hmmm, maybe those racial "stereotypes" are actually "genotypes"...Whaddya think?

- 2) The "social structural" viewpoint argues that behavior is shaped by Whites' fear of losing their privileged status. Is it really...fear? Don't you think you've more or less EARNED your place in society?...Quick, will the 2 successful white people in the nation who disagree stand up?
- 3) Then there is "nonracially inspired ideology," such as "poor attitudes" about the size and role of government. C'mon folks, is there any particular reason NOT to have profound doubts about the basic effectiveness of "your" government at all levels? Or is it not organized crime and not government at all?
- 4) White opinions that oppose policies "intended to improve racial conditions for blacks such as affirmative action" may have apparently nonracial foundations, such as the long-established principles of Individualism and fundamental fairness.
- 5) "Modern racism" tends to shift the blame to blacks and poor personal choices. Uh? SHIFT the blame...from WHERE in the first place, precisely? Rich Jews, maybe?
- 6) "People do not deserve to be poor, given the wealth of the United States." Ah, but does everyone simply DESERVE to be as rich as you who have worked your ass off? Hmm?
- 7) Whites can also be racist BECAUSE they believe in equality of opportunity, and recognize that some dogs jes' lays there and don't effa get up.
- 8) "We need economic equality NOW, so we can achieve social intimacy"...Now, how many of you white guys and gals, once you've settled on a likely mate, want the average black to be socially intimate with the two of you?
- 9) That which is "socially desirable" may be found quite distasteful to the individual or young family struggling on their own.
- 10) Whites "resist fine policies like affirmative action"...perhaps out of a sense of the violation of American ideals of justice?
- 11) The American dream — the faith that an individual can attain success and virtue through strenuous effort — is the very soul of the American nation. But it just doesn't work for the average black or greaser ... who, I guess...just doesn't WORK!
- 12) We have failed to recognize what "GIVING that dream to ALL requires of our society." Wrong, it simply requires a total local, state and federal tax bite of 70% of the average white man or woman's total income! Easy! De deveping countries in de thoid woild needs da money! Cough up honkee!

13) "We possess no other central beliefs that can save the United States from the chaos of persistent racial tension"...like freedom, ACHIEVING your own dignity, or EARNING any respect that others may be willing to grant you?

14) "Our national distress derives from white failure to SEE" that blacks have no real opportunity to accomplish anything with their lives...And is THAT an argument for integration...or resegregation?

15) Non Whites have hopes, fears, frustrations, anxieties and discontents that give impetus to their very challenging existence...and?...uh, so?

16) Blacks will "try" despite "their terrible, ever-worsening, living conditions." Say, who lives in the ghet-toe an' trows dat trash a-roun' de shacks, anyways?

17) Those estranged black poor, who have completely given up on the American dream or any other faith, and threaten the social fabric of the nation "are actually very small in number"...Then, NO ONE will complain when we give them prison work for life, where they can't hurt ANY of us, white OR black! Right?

18) There is "clear consensus among social scientists" (I always laugh at the oxymoron!) on "the offensive nature of historical U.S. race relations", and that "the suffering in the nation is because those who don't agree with the ideology of social progress regardless of cost are cruel, uncaring, unfeeling, just plain stupid, and/or not merely in error, but persist in sin". O.K., now do you agree with that assessment of YOURSELF, whitey? Finally, there is one with my own imprimatur..."Is division absolutely inevitable?" Well, are there significant numbers of blacks eager to see a black man get away with murder? Answer the question yes, and you will have acknowledged this nation is dead, and that we have simply forgotten...to bury the smell!

LAWS OF THE LONE WOLF

Anyone is capable of being a Lone Wolf.

Resistance is a lifestyle; each performs to his or her individual abilities. Success and experience will come in time. Always start off small. Many small victories are better than one huge blunder (which may be the end of your career as a Lone Wolf). Every little bit counts in a resistance.

Knowledge is power. Learn from your mistakes as well as the mistakes of others. Never rush into anything; time and planning are keys to success.

Never attempt anything beyond your own abilities, failure could lead to disaster. The less any outsider knows, the safer and more successful you will be.

Keep your mouth shut and your ears open. Never truly admit to anything. Communicate your message to others having the same beliefs as yours. Communication will add to your knowledge base. After all, having an opinion is still legal (I think).

Communication is a good thing, but keep your covert activities a secret. This will protect you as well as others like you. When someone from a membership group taunts you by saying "WHAT HAVE YOU DONE AS A LONE WOLF? Simply say, "That would be telling." DUHHHHH!!!!

Remember, even the smallest things make a difference. You will see that what you are doing is making an impact. If you never get caught, you are better than any army.

Others will notice your activities, but never try to take any credit for them, your success should be all the recognition you need. Never keep any records of your activities that can connect you to the activity. Keep in mind that repeated activity in one area would lead to increased attention to the area and possibly to you. The more you change your tactics, the more effective you will become. Random chaos is never predictable. Have a "rainy day" fund set aside in a safety deposit box (out of your local area and not in a high activity area), complete with new ID just in the event that something unexpected goes wrong. Only you will know your limitations.

Never utter more than the 5 Words to any agent or representative of ZOG: "I Have Nothing To Say." There are no exceptions. Anyone who does talk must be shunned from the movement forever.

Former associates of the talker may consider much harsher punishment. Never talk to a Grand Jury even when faced with Contempt of court. No exceptions.

Never join a membership group unless it is to monitor any threat to lone wolf operations: Support some activists and publications with periodic freewill donations covertly. You will be able to live without a membership card- also known as a security blanket. No meetings (that includes rallies, conventions, concerts and rendezvous) that are not for a compelling, specific activist reason that cannot be accomplished through other communication means (mail, E-mail, Net, phone, etc.).

Exist and fight as lone wolves or in a small cell and you will last longer and be at peak performance. I have never said there will never be a time when all small cells and lone wolves may evolve into a highly structured but ruthlessly militant organization with steel hard leaders. That time is not now and will not be for the foreseeable future. No present leader including myself will be leading that phase. We are only to prepare the way. Hopefully what we say and do now will make future victory possible. Remember, those who have come before you are counting on you, those who will come after you are depending on you. Think white, act White, be White! THE BEGINNING
